DARIEN

Whether you're in the Amazon jungle or your own backyard, a good machete is probably the most versatile knife ever built. A machete is literally the lifeline of indigenous people all over the world. From building shelters to food gathering and prep, it's the go-to tool. We designed the Darien after the typical South American machete. The 18" overall length is perfect around the farm or on your next overseas adventure.

Overall Length: 18.13"
Blade Length: 12.38"
Blade Thickness: .094"
1075 Carbon Steel
Black Oxide Finish
Micarta Handles
Canvas Sheath
Made In El Salvador

Item #: DARIEN
(Machete & Sheath)

The EXPAT Jaraca Kukri by ESEE® Knives is a powerful, versatile tool that can handle the harshest outdoor challenges just like the South American pit viper it was named after. Whether you need to chop wood, bamboo, clear branches, butcher meat, or slice through tough materials, the EXPAT Jaraca Kukri will tackle those tasks head-on.

- Reuben Bolieu
